- 3. Important Safety Instructions
 - Follow instructions for use. This document provides important product operation and safety information regarding this device. Please read this document thoroughly before using the device and keep it for future reference.
 - This device may only be used for the purposes described in these instructions. The manufacturer cannot be held liable for damage caused by incorrect application.
 - Do not operate the unit in presence of any anesthetic mixture inflammable with oxygen or nitrogen protoxide. This device is not suitable for anaesthesia and lung ventilation.
 - This device should only be used with original accessories as shown in these instructions.
 - Do not use this device if you think it is damaged or repaired.
 - Never open this device.
 - This device comprises sensitive components and must be treated with caution. Observe the storage and operating conditions described in the Technical Specifications section.
 - Protect it from:
 - water and moisture
 - extreme temperatures
 - impact and dropping
 - contamination and dust
 - direct sunlight
 - heat and cold
 - Comply with the safety regulations concerning the electrical devices and equipment:
 - Never touch the device with wet or moist hands.
 - Place the device on a stable and horizontal surface during its operation.
 - Do not pull the power cord or the device itself to unplug it from the power socket.
 - The power plug is a separate element from the device. Keep the plug accessible when the device is in use.
 - Before plugging in the device, make sure that the electrical rating, shown on the rating plate on the bottom of the unit, corresponds to the mains rating. In case the power plug provided with the device does not fit your wall socket, contact a qualified person for replacement plug with correct rating.
 - In general, the use of adapters, simple or multiple, and/or extension cables is not recommended. If their use is indispensable, it is necessary to use types complying with national regulations, paying attention that they do not exceed the maximum power limits, indicated on adapters and extension cables.
 - Do not leave the unit plugged in when not in operation.
 - The installation must be carried out according to the instructions of the manufacturer. An improper installation can cause damage to persons, animals or objects, for which the manufacturer cannot be held responsible.
 - Do not replace the power lead of this device. In case of a power lead damage, contact a technical service center authorized by the manufacturer for its replacement.
 - The power supply cord should always be fully ungrounded in order to prevent dangerous overloading.
 - Before performing any maintenance or cleaning operation, turn off the device and disconnect the plug from the main supply.
 - Only use the medication prescribed for you by your doctor and follow your doctor's instructions with regard to dosage, duration and frequency of the therapy.
 - Depending on the pathology, only use the treatment pulp it is recommended by your doctor.
 - Only use the nose piece if expressly indicated by your doctor, paying special attention NEVER to introduce the bifurcations into the nose, but only positioning them as close as possible to the nostrils.
 - Check in the medicine instruction leaflet for possible contraindications for use with common aerosol therapy systems.
 - Do not position the equipment so that it is difficult to operate the disconnection device.
 - For greater hygienic safety, do not use the same accessories for more than one person.
 - Never bend the nebuliser over 60°.
 - Do not use this device close to strong electromagnetic fields such as mobile telephones or radio installations. Keep a minimum distance of 3.3 m from these devices when using this device.
 - Ensure that children do not use this device un-supervised, some parts are simply useful to be swallowed.
 - Do not use the equipment so that it is difficult to operate the disconnection device.
 - Use this device is not intended as a substitute for a consultation with your doctor.

- 3. Важные указания по безопасности
 - Следуйте инструкциям по использованию. В этом документе содержится важная информация о работе и безопасности этого прибора. Пожалуйста, внимательно прочтите этот документ и сохраните его для дальнейшего использования прибора.
 - Прибор может использоваться только в целях, описанных в данной инструкции. Производитель не несет ответственности за повреждения, причиненные неправильным использованием.
 - Не используйте прибор в непосредственной близости от обезболивающих растворов, которые могут использоваться для респираторной терапии.
 - Данный прибор не предназначен для ингаляционной терапии и/или (ИПТ) (Искусственной Вентиляции Легких). В данном приборе разрешается использование комплектов, предназначенных для этого прибора.
 - Не используйте прибор, если вы заметили, что он поврежден, или если вы заметили что-либо необычное, что прибор не работает правильно.
 - В этом приборе могут использоваться компоненты, требующие осторожного обращения. Объявите об этом условия хранения и эксплуатации, описанные в разделе «Технические характеристики».
 - Оберегайте прибор от:
 - воды и влаги
 - экстремальных температур
 - ударов и падений
 - загрязнения и пыли
 - контакта с острыми предметами, жидкой и горячей жидкостью
 - Соблюдайте требования безопасности, приведенные в электрической инструкции к прибору.
 - Никогда не касайтесь прибора мокрыми или влажными руками.
 - Не тяните за кабель питания, или сам прибор, иначе вы можете вызвать искры или возгорание.
 - Видна информация о безопасности, доступная при эксплуатации, видна только при снятии крышки прибора.
 - Перед тем, как подключить прибор к сети, убедитесь, что требования к электропитанию, указанные на табличке на нижней поверхности прибора, соответствуют параметрам электросети.
 - В случае, если видна информация, поставленная в инструкции по эксплуатации, внимательно изучите ее и соблюдайте.
 - Не модифицируйте отвод питания этого прибора. В случае повреждения отвода питания, свяжитесь с производителем (центром авторизованного сервисного обслуживания прибора, предусмотренных правилами, изложенных в инструкции по эксплуатации).
 - Перед тем, как приступить к обслуживанию или чистке прибора, выключите его из розетки и отсоедините от электросети.
 - Используйте для лечения только препараты, выписанные Вашим лечащим врачом, и строго следуйте его указаниям.
 - В зависимости от патологии, используйте терапию, рекомендуемую вашим врачом.
 - Используйте только те аксессуары, которые прямо рекомендованы вашим врачом. НИКОГДА не допускайте прямого контакта насадкой для носа с кожей. Вместо этого используйте насадку в непосредственной близости к носу.
 - Изучите инструкцию по использованию лекарственных средств, прежде чем использовать их в обычных условиях аэрозольной терапии.
 - Не ставьте прибор таким образом, чтобы его было трудно отключить от сети.
 - Изображения в инструкции, используйте один и тот же аксессуар (насадку) только для одного и того же человека.
 - Не используйте устройства, которые могут вызвать искры или возгорание, например, мобильные телефоны или радиостанции. Во время использования устройства минимальное расстояние от источника тепла прибор должен составлять не менее 3,3 м.
 - Позаботьтесь о том, чтобы дети не могли использовать прибор без присмотра, поскольку прибор является электрическим прибором, который может вызвать искры или возгорание.
 - Перед использованием прибора проконсультируйтесь с Вашим лечащим врачом.

2. Important Safety Instructions

- Follow instructions for use. This document provides important product operation and safety information regarding this device. Please read this document thoroughly before using the device and keep it for future reference.
- This device may only be used for the purposes described in these instructions. The manufacturer cannot be held liable for damage caused by incorrect application.
- Do not operate the unit in presence of any anesthetic mixture inflammable with oxygen or nitrogen protoxide. This device is not suitable for anaesthesia and lung ventilation.
- This device should only be used with original accessories as shown in these instructions.
- Do not use this device if you think it is damaged or repaired.
- Never open this device.
- This device comprises sensitive components and must be treated with caution. Observe the storage and operating conditions described in the Technical Specifications section.
- Protect it from:
 - water and moisture
 - extreme temperatures
 - impact and dropping
 - contamination and dust
 - direct sunlight
 - heat and cold
- Comply with the safety regulations concerning the electrical devices and equipment:
 - Never touch the device with wet or moist hands.
 - Place the device on a stable and horizontal surface during its operation.
 - Do not pull the power cord or the device itself to unplug it from the power socket.
 - The power plug is a separate element from the device. Keep the plug accessible when the device is in use.
 - Before plugging in the device, make sure that the electrical rating, shown on the rating plate on the bottom of the unit, corresponds to the mains rating. In case the power plug provided with the device does not fit your wall socket, contact a qualified person for replacement plug with correct rating.
 - In general, the use of adapters, simple or multiple, and/or extension cables is not recommended. If their use is indispensable, it is necessary to use types complying with national regulations, paying attention that they do not exceed the maximum power limits, indicated on adapters and extension cables.
 - Do not leave the unit plugged in when not in operation.
 - The installation must be carried out according to the instructions of the manufacturer. An improper installation can cause damage to persons, animals or objects, for which the manufacturer cannot be held responsible.
 - Do not replace the power lead of this device. In case of a power lead damage, contact a technical service center authorized by the manufacturer for its replacement.
 - The power supply cord should always be fully ungrounded in order to prevent dangerous overloading.
 - Before performing any maintenance or cleaning operation, turn off the device and disconnect the plug from the main supply.
 - Only use the medication prescribed for you by your doctor and follow your doctor's instructions with regard to dosage, duration and frequency of the therapy.
 - Depending on the pathology, only use the treatment pulp it is recommended by your doctor.
 - Only use the nose piece if expressly indicated by your doctor, paying special attention NEVER to introduce the bifurcations into the nose, but only positioning them as close as possible to the nostrils.
 - Check in the medicine instruction leaflet for possible contraindications for use with common aerosol therapy systems.
 - Do not position the equipment so that it is difficult to operate the disconnection device.
 - For greater hygienic safety, do not use the same accessories for more than one person.
 - Never bend the nebuliser over 60°.
 - Do not use this device close to strong electromagnetic fields such as mobile telephones or radio installations. Keep a minimum distance of 3.3 m from these devices when using this device.
 - Ensure that children do not use this device un-supervised, some parts are simply useful to be swallowed.
 - Do not use the equipment so that it is difficult to operate the disconnection device.
 - Use this device is not intended as a substitute for a consultation with your doctor.

- 3. Важные указания по безопасности
 - Следуйте инструкциям по использованию. В этом документе содержится важная информация о работе и безопасности этого прибора. Пожалуйста, внимательно прочтите этот документ и сохраните его для дальнейшего использования прибора.
 - Прибор может использоваться только в целях, описанных в данной инструкции. Производитель не несет ответственности за повреждения, причиненные неправильным использованием.
 - Не используйте прибор в непосредственной близости от обезболивающих растворов, которые могут использоваться для респираторной терапии.
 - Данный прибор не предназначен для ингаляционной терапии и/или (ИПТ) (Искусственной Вентиляции Легких). В данном приборе разрешается использование комплектов, предназначенных для этого прибора.
 - Не используйте прибор, если вы заметили, что он поврежден, или если вы заметили что-либо необычное, что прибор не работает правильно.
 - В этом приборе могут использоваться компоненты, требующие осторожного обращения. Объявите об этом условия хранения и эксплуатации, описанные в разделе «Технические характеристики».
 - Оберегайте прибор от:
 - воды и влаги
 - экстремальных температур
 - ударов и падений
 - загрязнения и пыли
 - контакта с острыми предметами, жидкой и горячей жидкостью
 - Соблюдайте требования безопасности, приведенные в электрической инструкции к прибору.
 - Никогда не касайтесь прибора мокрыми или влажными руками.
 - Не тяните за кабель питания, или сам прибор, иначе вы можете вызвать искры или возгорание.
 - Видна информация о безопасности, доступная при эксплуатации, видна только при снятии крышки прибора.
 - Перед тем, как подключить прибор к сети, убедитесь, что требования к электропитанию, указанные на табличке на нижней поверхности прибора, соответствуют параметрам электросети.
 - В случае, если видна информация, поставленная в инструкции по эксплуатации, внимательно изучите ее и соблюдайте.
 - Не модифицируйте отвод питания этого прибора. В случае повреждения отвода питания, свяжитесь с производителем (центром авторизованного сервисного обслуживания прибора, предусмотренных правилами, изложенных в инструкции по эксплуатации).
 - Перед тем, как приступить к обслуживанию или чистке прибора, выключите его из розетки и отсоедините от электросети.
 - Используйте для лечения только препараты, выписанные Вашим лечащим врачом, и строго следуйте его указаниям.
 - В зависимости от патологии, используйте терапию, рекомендуемую вашим врачом.
 - Используйте только те аксессуары, которые прямо рекомендованы вашим врачом. НИКОГДА не допускайте прямого контакта насадкой для носа с кожей. Вместо этого используйте насадку в непосредственной близости к носу.
 - Изучите инструкцию по использованию лекарственных средств, прежде чем использовать их в обычных условиях аэрозольной терапии.
 - Не ставьте прибор таким образом, чтобы его было трудно отключить от сети.
 - Изображения в инструкции, используйте один и тот же аксессуар (насадку) только для одного и того же человека.
 - Не используйте устройства, которые могут вызвать искры или возгорание, например, мобильные телефоны или радиостанции. Во время использования устройства минимальное расстояние от источника тепла прибор должен составлять не менее 3,3 м.
 - Позаботьтесь о том, чтобы дети не могли использовать прибор без
